

Art is in the Car

WELCOME

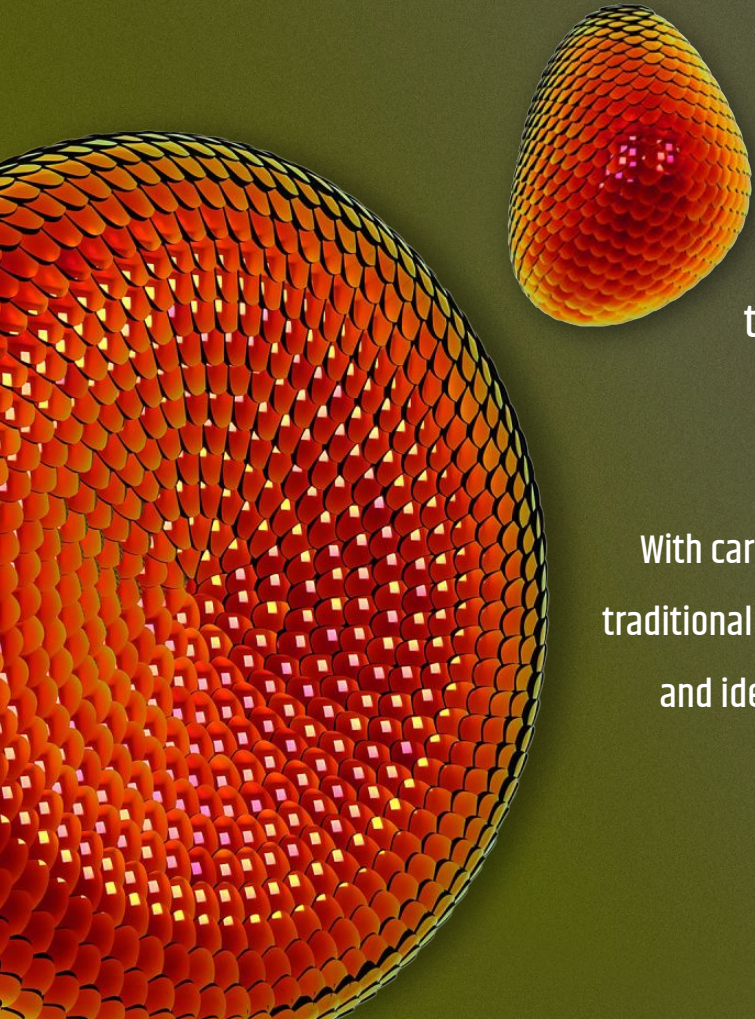

to a brand-new platform created by mavericks from the automotive and art world.

INTRODUCING

motocarto

celebrating the evolution
of automotive individuality
and associated art.

Based on a desire to present a broader cultural experience within the motoring arena, MotoArto will combine Car infused Art alongside bespoke and personalised cars and bikes.

With cars and self-expression having long been intertwined, MotoArto transcends the traditional car show with a 4-dimensional cultural experience by embracing the passion and ideas being created by independent makers and major manufacturers together with art driven by the inspiration of the automotive.

SHOREDITCH
